

Toka Utah

April 22, 1940.

Mr. J. H. Humphreys
Salt Lake City Utah.

Dear sir:-

Enclosed is minutes of the meeting you called for today. We expected a representative from your office, and were disappointed.

We would like to know if there is any thing we can do. None of the other users want a commissioner, because they don't think they would get any more than they are ^{now}, and would have to help pay his expense. Have you any copy of the law on this you could send us?

We have that that all the users had to pay for a commissioner, if they had filings and used water the same on this stream as on others. Please send us any information you can on this as the later filings up the stream are using water that we think should come to us. Please answer as soon as possible.

Yours truly
Sand Wash Div. Co by Archie Benson.
